Summary

I am a passionate programmer with over 7 years of experience, dedicated to finding new and creative solutions to technological challenges. My fascination for the world of programming extends beyond code, as I love to share my knowledge through talks about programming languages and how technology works today.

Work Experience

- **CryptoDepto:** I worked together with a team in the Frontend area, found a solution to make the layouts and compose most of the page, besides leading the chatbot project with AI.

  2023 - Actuality
  NextJS, React, Tailwind, MongoDB, Axios & i18next.

- **University of San Agustin, Peru:** I gave a talk about best practices in UI / UX oriented to mobile to more than 20 computer engineering students.

  2024

- **University of Trujillo, Peru:** I had the opportunity to teach at UNITRU in a course entitled "Introduction to Python" having more than 20 students per class.

  2023

- **FrogLabs:** I was in the development of FrogLabs creating an online classroom platform, creating the classroom systems, subscriptions, routes and logins.

  2020 - 2023
  SupaBase, React, CSS & Python.

- **No More Opportunities:** Together with my team, we developed a program that did not allow access to sensitive files on my institute's computers, prohibiting the entry of unauthorized USBs or access to programs such as the terminal.

  2019 - 2020
  C#

Technical Skills

Web Development	Design and Editing	Learning 📑
